A Domestic Insurgency Has Erupted – President Trump Sending Tom Homan to Minneapolis

January 26, 2026 | [Sundance](#) | [247 Comments](#)

The violence in Minneapolis erupted when the scale of financial fraud was discovered. The administration of President Trump has begun to highlight this non-pretending reality.

On the surface it seems like ICE enforcement is the issue; however, in reality Governor Tim Walz and Mayor Jacob Frey have been leading a criminal syndicate, with the entire region engaged in money laundering and financial fraud.

State political leadership are involved. The local Minneapolis police are involved; the Minneapolis municipal leaders are involved; a large and dedicated segment of the migrant population is involved; corrupt judges and officers of the courts are involved; public and private sector agencies involved in fraudulent exploitation of benefits are involved, and the community activists -footsoldier communists- are engaged in the process of using civil unrest as cover.

As the violent insurgency escalates, President Trump [has announced](#) Border Czar Tom Homan is being sent to the region:

"I am sending Tom Homan to Minnesota tonight. He has not been involved in that area, but knows and likes many of the people there. Tom is tough but fair, and will report directly to me. Separately, a major investigation is going on with respect to the massive 20 Billion Dollar, Plus, Welfare Fraud that has taken place in Minnesota, and is at least partially responsible for the violent organized protests going on in the streets. Additionally, the DOJ and Congress are looking at "Congresswoman" Ilhan Omar, who left Somalia with NOTHING, and is now reportedly worth more than 44 Million Dollars. Time will tell all. Thank you for your attention to this matter!" ~ President DJT

When we went to Iraq/Afghanistan, American political leadership said we were going to fight them “there” so that we didn’t need to fight them “here.” However, that same American political leadership then imported hundreds-of-thousands of them to here.

The communist-minded community activists have joined with the Antifa domestic terrorists and adopted the strategy of insurgencies. Former retired Green Beret Officer Eric Schwalm writing on X accurately draws attention to the similarity of action:

Eric Schwalm: “As a former Special Forces Warrant Officer with multiple rotations running counterinsurgency ops—both hunting insurgents and trying to separate them from sympathetic populations—I’ve seen organized resistance up close. From Anbar to Helmand, the pattern is familiar: spotters, cutouts, dead drops (or modern equivalents), disciplined comms, role specialization, and a willingness to absorb casualties while bleeding the stronger force slowly.

What’s unfolding in Minneapolis right now isn’t “protest.” It’s low-level insurgency infrastructure, built by people who’ve clearly studied the playbook.

Signal groups at 1,000-member cap per zone. Dedicated roles: mobile chasers, plate checkers logging vehicle data into shared databases, 24/7 dispatch nodes vectoring assets, SALUTE-style reporting (Size, Activity, Location, Unit, Time, Equipment) on suspected federal vehicles. Daily chat rotations and timed deletions to frustrate forensic recovery. Vetting processes for new joiners. Mutual aid from sympathetic locals (teachers providing cover, possible PD tip-offs on license plate lookups). Home-base coordination points. Rapid escalation from observation to physical obstruction—or worse.

This isn’t spontaneous outrage. This is C2 (command and control) with redundancy, OPSEC hygiene, and task organization that would make a SF team sergeant nod in recognition. Replace “ICE agents” with “occupying coalition forces” and the structure maps almost 1:1 to early-stage urban cells we hunted in the mid-2000s.

The most sobering part? It’s domestic. Funded, trained (somewhere), and directed by people who live in the same country they’re trying to paralyze law enforcement in.

When your own citizens build and operate this level of parallel intelligence and rapid-response network against federal officers—complete with doxxing, vehicle pursuits, and harassment that’s already turned lethal—you’re no longer dealing with civil disobedience. You’re facing a distributed resistance that’s learned the lessons of successful insurgencies: stay below the kinetic threshold most of the time, force over-reaction when possible, maintain popular support through narrative, and never present a single center of gravity.

I spent years training partner forces to dismantle exactly this kind of apparatus. Now pieces of it are standing up in American cities, enabled by elements of local government and civil society. That should keep every thinking American awake at night.

Not because I want escalation. But because history shows these things don't de-escalate on their own once the infrastructure exists and the cadre believe they're winning the information war.

We either recognize what we're actually looking at—or we pretend it's still just "activism" until the structures harden and spread.

Your call, America. But from where I sit, this isn't January 2026 politics anymore. It's phase one of something we've spent decades trying to keep off our own soil. [\[source\]](#)

If the insurrectionists have access to the Flock camera system (that are everywhere!~) then they know where everyone is all the time.

First thing for President Trump take control of Flock. (if not already done)

As we know with cellphone data and now Flock there is no hiding.

More than 300 Flock cameras are in use in Minneapolis, St Paul and the surrounding suburbs.
<https://www.startribune.com/license-plate-reader-cameras/601532515>

The feeds go to the local police departments. Judging by the deranged statements by the chiefs of police in those cities I would not be surprised if they were using camera data to track ICE.

The Minneapolis city government has an extensive website with information about their use of cameras. They have maps, info about policies, info about privacy. I notice they publish that information in English, Spanish, Somali, Hmong and will accept requests for other formats as well.

Of particular note to both to you comment and the topic on hand, observe the “Searches Conducted by Agency” Map and compare the number of searches in the Minneapolis area to the rest of the country conducted in the last thirty days.

Law enforcement agencies do not lack for tools to identify the insurrectionists in Minneapolis. They lack the will, at least in this instance. Were these insurrectionists *peaceful* protesters rallying against forced relocation to quarantine camps, the same agencies would be bringing the full weight of the surveillance state down upon every unvaccinated neck it could identify through Flocks, LPRs, and cellphone data.

These tools are extremely dangerous not only because they are omnipresent, but because they are selectively applied based on the politics of those involved.

When are military and elected leaders going to make a video telling Minnesota National Guardsmen that they are not obligated to follow illegal orders? The last report I saw said they are handing out refreshments and hot drinks to illegal alien invader co-conspirators who are attacking federal law enforcement?

When is someone with testicular fortitude going to tell Representative Comer that immigration is a FEDERAL issue, not a STATE or MUNICIPAL issue, and withdrawing ICE from Minnesota just because their state/local government doesn't support them will only serve to energize other insurrectionists around the country?

After listening to MN LT.GOV. Peggy Flanagan, I am finally won over to the idea of the Insurrection Act being used in MN.

Yes, Tim Walz is an absolute nut job, but it appears that they are all dead serious Communists/ Insurrectionists.

They think they have woven a trap for Trump, but Trump's legal teams are far superior, think through everything in advance, and will use the Law to do things correctly. Yes, a part of our population will scream NO KINGS!, but most of us will be relieved that something is finally being done to stop the terrorists from within dragnet style.

I was just trying to remember what match was lit that finally kicked off the War of Northern Aggression (a.k.a the Civil War). It wasn't over slavery as we were taught. But, that's another rabbit hole.

In the secession documents of just 3 (Mississippi, South Carolina and Virginia) of the seceding states themselves, slavery/slaveholding/slaves was mentioned an astounding 27 times

I like your thought process on this, and I fervently pray that you are correct about the course of the Trump team actions. I generally avoid rabbit holes only because going into one absorbs too much time. But this Civil War one you cite is quite relevant here. Correct or not, I had a college professor who postulated that the Civil War was fought over industrialization. At 30,000 feet what does that mean? It means the same thing that is going on in MN: billions (perhaps more, but who really knows yet?) are at stake. These corrupt elites-in-waiting are desperate to protect

themselves and they are in way too deep at this point to do anything other than fight. Who has the upper hand here? Seems to me VSGPDJT has the upper hand as you so eloquently point out in your second paragraph. 

Holy smokes. Just think of it: Tim Walz as Vice President.

Pushing the woman into the snowbank caught my attention too. In the longer vids I looked at, she (and a second person) had been interacting with officers while the deceased was standing in the street. I think the officers decided she needed to be removed or detained and that led to the scrum(?).

There were several people that were in/near that scrum who scurried away as soon as the shots rang out. It will be interesting to know if they were friends with the deceased or just at same place/time.

Four years of wide-open borders allowing criminal gangs and well-funded, America-hating terrorists, under a senile president dancing to the strings of his communist Stromboli staff...

All of the above has consequences! We are seeing those consequences now in Minnesota,

where only the bad guys are left and all the good guys have been murdered, imprisoned, left the state or been frightened into silence!

What's most disturbing is that the most of legacy media and the entire Democrat party are in on this dirty game of massive fraud, intimidation and pretending!

The American people need to see the truth...not easy with the media, Hollywood and Democratic party elites all blowing smoke in their eyes!

President Trump is sending Tom Homan to the scene of the crime but he knows that invoking the Insurrection Act is his only option!

With the use of the SIGNAL and the insurrectionists getting and compiling the ICE license plates and other data about them, have no doubt when the next election goes in their favor they will prosecute and jail every single one that helped the country.

Another reason why making arrests and putting a stop to the criminals all the way down the line must take place.

Then the elections must be made fair. Without that we are facing a much bigger war.

I am horrified. I cannot believe it. I analyzed public databases and media reporting on violent confrontations with ICE over the past year. Just 9 counties accounted for TWO-THIRDS of violent confrontations with ICE in America. This is twice all violent confrontations in the remaining 3,134 counties COMBINED. A violent confrontation in these 9 counties was 590 TIMES more likely than any of these other 3,134 counties. 590 times. I plotted these 9 counties, and I found that all 9 counties are sanctuary jurisdictions run by Democrat politicians that resist immigration law enforcement. These violent confrontations are RARE in states and cities where local officials cooperate with law enforcement.

Methodology and detailed findings ICE ENFORCEMENT INCIDENTS ANALYSIS (2025-2026) An analysis of violent confrontations between ICE agents and non-immigrants (protesters, journalists, bystanders, officers, and US citizens) during immigration enforcement operations. KEY FINDING: EXTREME GEOGRAPHIC CONCENTRATION The top 9 counties account for 63% of all violent confrontations with non-immigrants nationwide. A violent confrontation is 590 TIMES MORE LIKELY in the top 9 counties than in any of the other 3,134 US counties.

BY THE NUMBERS Total non-immigrant incidents: 174 Incidents in top 9 counties: 110 (63%) Incidents in remaining 3,134 counties: 64 (37%) Counties with 4+ incidents: 9 Per-county likelihood ratio: 590x TOP 9 COUNTIES (4+ incidents each) Rank County City Incidents Mayor
1 Cook County, IL Chicago 28 Brandon Johnson
2 Los Angeles Co, CA Los Angeles 25 Karen Bass
3 Hennepin County, MN Minneapolis 21 Jacob Frey
4 New York County, NY New York City 12 Zohran Mamdani
5 Multnomah County, OR Portland 6 Keith Wilson
6 San Francisco Co, CA San Francisco 6 Daniel Lurie
7 King County, WA Seattle 4 Katie Wilson
8 Essex County, NJ Newark 4 Ras Baraka
9 Denver County, CO Denver 4 Mike Johnston

All 9 counties are in jurisdictions with sanctuary policies that limit cooperation with federal immigration enforcement.

WHAT COUNTS AS A "VIOLENT CONFRONTATION" This analysis focuses on confrontations involving people who are NOT the targets of immigration enforcement:

- Protesters: Individuals at demonstrations against ICE operations
- Journalists: Press covering enforcement actions
- Bystanders: Uninvolved individuals caught in enforcement operations
- US Citizens: American citizens wrongfully detained, assaulted, or deported
- Officers: ICE/CBP agents injured in attacks on facilities These are tracked separately from incidents involving detainees or enforcement targets.

DATA SOURCES The data comes from multiple sources, organized by reliability:

TIER 1 – Official Government Data (49 incidents) Sources: ICE Detainee Death Reporting, DOJ records, court filings

TIER 2 – Investigative Journalism (69 incidents) Sources: The Trace, ProPublica, NBC News investigations

TIER 3 – Systematic News Search (218 incidents) Sources: AP, Reuters, major outlets via defined search methodology

TIER 4 – Ad-Hoc News Reports (64 incidents)

Sources: Local news, verified social media reports **TOTAL: 400 documented incidents (174 involving non-immigrants)**

HOW THE DATA WAS COLLECTED

Tier 1 (Official Data):

- ICE Detainee Death Reporting website – American Immigration Lawyers Association death tracking

- DOJ court records and federal litigation filings – FOIA releases Note: ICE stopped publishing death reports after October 2025

Tier 2 (Investigative Journalism):

- The Trace: ICE/CBP shootings tracker – ProPublica: US citizens detained/deported investigation

- ProPublica: Less-lethal weapons documentation

- ProPublica: Banned chokeholds video evidence

- NBC News: ICE shootings compilation – ACLU litigation filings

Tier 3 (Systematic News Search): – Defined source list: AP, Reuters, NBC, CBS, ABC, CNN, major regional papers – Search terms: “ICE shooting”, “ICE protest”, “CBP force”, etc.

– Date range: January 20, 2025 – January 26, 2026 – Each incident verified against at least one additional source

Tier 4 (Ad-Hoc Reports): – Local newspapers

- Verified social media posts

- Community organization reports – Each record includes source URL for verification

SANCTUARY STATUS CLASSIFICATION Primary source: DOJ Sanctuary Jurisdiction List (Executive Order 14287) Secondary source: ILRC

State Map on Immigration Enforcement Categories:

- Sanctuary: State/local policy limits cooperation with ICE – Anti-sanctuary: State law requires cooperation with ICE – Neutral: No formal policy either direction

- Cooperative: Voluntarily cooperates with ICE detainees

KNOWN LIMITATIONS

1. Media coverage bias – Sanctuary jurisdictions may receive more media attention, potentially inflating incident counts in those areas

2. ICE reporting gaps – ICE stopped publishing death reports after October 2025

3. Selection bias – Tier 3-4 data has higher selection bias risk

4. Known undercounts:

- ProPublica found 170+ US citizen detentions; ~50 documented here

- The Trace identified 26 shootings; 19 with full details here

- GAO found ICE couldn't provide 5 years of use-of-force data

DATA COVERAGE Time period: January 20, 2025 – January 26, 2026 Geographic scope: All 50 US states + DC Last updated: January 26, 2026 FOR MORE INFORMATION The full dataset with source URLs for each incident is available in the data files. Each incident record includes the original news source for verification.

Connected to Canada too.

The rioters in Minneapolis have access to license plate databases – this proves state involvement.

Their Signal chats have elected leaders and exposed money trails from Canada – this proves foreign involvement.

They attack ICE agents and threaten journalists like @JamesOKeefeIII and @nickshirleyy – this proves violence.

What’s happening in Minnesota is foreign and domestic state-sponsored domestic terrorism. Period.

War Room GETTR- ROGAN O’HANDLEY: These Minneapolis Signal chats have organized protocols, training manuals, and financing docs, including foreign funding from Canada!

The Minnesota Lt. Gov., state reps, and city councilors have all been identified. This is sedition! If this leads to violence/deaths, it is insurrection, sedition, felony murder, and conspiracy!

President Trump MUST STAY ON OFFENSE or this will spread nationwide.

the Shadow Knows ⏺ January 26, 2026 12:17 pm

I noted during the kungflu games that the local police and the prosecutors/judicial system had shifted the dynamic of crime here. Before that time participation in a crime in furtherance of a gang was an enhancer that added mandatory prison time. Once the St George of Fentanyl op started that enhancement was reversed and participation in ever-larger groups became a get out of jail free card. The local cops, prosecutors and judges all rotated those members of organized units right back onto the streets.

Back then I observed and noted that the roving gangs of criminals had gone from individuals with maybe one or at most two partners, to where they were operating at squad and even patrol sizes. It became common for car jackers to arrive in half a dozen or more stolen cars, with maybe 2 dozen armed criminals (most with full auto adaptations on their weapons). The units were being coordinated as an even larger group, just say company size.

That was 2020 and 2021. Now what do we see? Battalions?

I warned many people then that their sense of safety because they were rural was false, that once these units were fully trained up and operating in large forces they will roll through those rural areas with ease. Remote farmhouses will have no better chance now than they did when the braves left the reservation and ravaged the countryside.

PRESIDENT TRUMP'S TRUTH SOCIAL

“Governor Tim Walz called me with the request to work together with respect to Minnesota.

It was a very good call, and we, actually, seemed to be on a similar wavelength.

I told Governor Walz that I would have Tom Homan call him, and that what we are looking for are any and all Criminals that they have in their possession.

The Governor, very respectfully, understood that, and I will be speaking to him in the near future.

He was happy that Tom Homan was going to Minnesota, and so am I!

We have had such tremendous SUCCESS in Washington, D.C., Memphis, Tennessee, and New Orleans, Louisiana, and virtually every other place that we have “touched” and, even in Minnesota, Crime is way down, but both Governor Walz and I want to make it better!

Sundance,

Chief Schwalm's post is THE most revelatory piece on the web today. He has the CV to back up his statements as it is derived from the world's premier school of both insurgency and counter insurgency, the JFK Special Warfare Training Center and School. He knows of what he writes.

Every single person involved in the insurgency in Minneapolis (not peaceful protestors) must be arrested for insurrection. Without a serious and non-negotiable stance on this, neo-Marxists and their ilk will continue to hone their craft domestically, further destroying our Constitutional Republic.

State and local elected leaders complicit in this insurrection must be made examples of. There is no other solution here.

There is a reason the democrat party allowed the concentration of illegal and JoeBama Auto Pen Residents to be concentrated in the largest metropolitan locations within the US and EACH Blue as well as Red State ... those reasons transcend the obvious large voting blocks of Ballots rationale.

Located in those large metropolitan "spoke" areas with the "hub" environs located near DC as the master:

Hubs of Transportation

Hubs of Communications

Hubs of Banking

Hubs of Data Farms

Hubs of Federal Agencies controlled by Collaborating Democrats

Hubs of "Wall Street" controlled Markets

Hubs of the District Federal Court System

Hubs of the Local District DoJ/FBI (which the President does not control)

Also, using the terms from the 2018 Belgian and French Intel agencies the concentrations of immigrants create oceans of domestic logistical support and friendly environments for the insurrectionists to operate.

The subsequent subjugation of the US by the Puppet Masters has been brilliantly conducted so far.

The battle for the control of Minneapolis is just another skirmish and as larger major metropolitan areas now operate autonomously ... LA, NY City, Chicago, Seattle, and others. The legislative branch will continue to fund them, while the cooperative inaction of the DoJ and Courts (US and State) allows them operate with no fear of accountability.

2-Banches of the US Government remain nearly 100% compromised (Legislative and

Judicial).

The President can count on the loyalty of maybe 40-50% of the Executive Branch, with the remainder either sitting on the sidelines or awaiting orders to rebel. It's not clear if the Military will support more than "law enforcement missions" domestically if ordered to do so in my mind.

With no support from DoJ nor the Courts there is no way for the criminal actions of Government officials and their agents to be held accountable by actions short of kinetic action by whatever parts of the Executive Branch will support the President.

When Mr. Schwalm says these things don't deescalate on their own, I think he is saying, "We didn't kill them there. We must now kill them here." It is what it is, and was made that way by MN AG Ellison, governor Tim Putz Walz, mayor Jacob "Fag" Frey, and tens of thousands of brain washed woke dopes.

They want war? Looks like they may get it.

I've said, since Trump's first day as President, they were going to treat the DS takedown the same way as an counter-insurgency is treated. This simply confirms that the protest wing is modelled on an insurgent's military wing, and that state actors are involved in its creation and continued operation. The rest of the DS structure is equally based on an insurgency, this time in the role as a shadow government, again supported and sustained by state (both US and foreign) and non state actors.

Interestingly, given the mimicking of insurgent tactics, that there is little to no mention of drones, and their impact on various aspects of the ongoing operation

Excerpt:

"Many are calling for President Trump to invoke the Insurrection Act. The Singham / CCP / Democratic Party axis would like nothing better, of course, because they could then slap the "tyrant" label on Mr. Trump and set him up for impeachment in 2027, if they can take the midterm election. And they'll do exactly that if Senate Majority Leader John Thune keeps obstructing passage of the SAVE (election reform) Act."

So my experience from previous deployments to Afghanistan and Iraq....If friendly units were "over" an insurgent "monetary" target or money operation that they wanted to protect, the harder they fought to protect it and the more "political" interdiction you would see within the governments of Iraq or Afghanistan because the money was being embezzled by political leaders within those countries. My opinion, the US Government is "over" the center of the monetary target of financial/political fraud and embezzlement in Minneapolis, hence the intensity of the "conflict" to prevent the public from seeing GOV Walz's financial embezzlement operations. It is time to go after the real command and control network in Minnesota, which is state and local politicians, judges and law enforcement who are aiding and abetting the foot soldiers.

A tale of two shootings:

August 2020 Kyle Rittenhouse goes to a protest in Kenosha WI armed with an AR15. He had medical training and was at the protest to provide medical assistance if needed. He

participated in cleaning graffiti left by protestors.

A mob of protestors confronted Rittenhouse, who tried to disengage. Law enforcement is nowhere to be found. The mob chased him. The mob attempted to club him with skateboards. When the mob cornered him and were trying to kill him, Rittenhouse fired in self-defense killing two.

The Left demonized Rittenhouse and to this day threaten to murder him.

January 2026, Alex Pretti a trained ER nurse, goes to a protest in Minneapolis armed with a 9mm pistol and extra magazines. He actively engages in harassing and video-streaming federal agents trying to arrest an illegal alien, Jose Huerta Chuma, with a long history of criminal activities, including domestic assault, disorderly conduct and driving without a license.

Pretti rushed at federal agents who were fending off an attack by a different protestor. Pretti refuses to back off, refuses to comply, refuses to give up his weapon and instead gets fully engaged into a struggle with multiple federal law enforcement officers. He ends up dead.

The Left makes Pretti out to be some kind of a hero.

FTA “Mainstream media outlets rushed to paint Alex Pretti as a blameless ICU nurse gunned down by heartless Border Patrol agents in Minneapolis on Saturday. They highlighted his work caring for veterans and seized on video snippets showing him holding a phone. The New York Times ran with that angle, running the headline “Man Killed by Federal Agents in Minneapolis Was Holding a Phone, Not a Gun,” and claimed that footage captured Pretti only with his phone in hand, insisting that agents had no reason to believe he was armed during their encounter. Media outlets are also quick to point out that Pretti held a valid Minnesota concealed carry permit and legally owned the gun, as if that absolved him for his actions against the Border Patrol agents.

The mainstream media seems to be uninterested in reporting on Pretti’s involvement with his local ICE Watch group. Similar gaslighting took place after the shooting of Renee Good after she attempted to run over an ICE agent with her car earlier this month. She was immediately portrayed as a scared “Minnesota mom” who had just dropped her son off at school and accidentally found herself in the middle of an active ICE operation.”

This is an insurrection! JMO

You have to take into consideration of what a portion on the God fearing citizens will do. Obviously the gentleman is spot on with his analysis. But this isn't just a; what will Trump do, what will the government do, what happens if Democrats win the next election debate. You have to include in the calculus what will the citizenry do to halt this leftist insurrection. At some point if the state and federal governments (and the maginot line GOP) do not get a hold on this, then we the people will start to fight back. That I believe needs to be a part of this strategic thinking and gaming this out. At some point the 'good and mind your own business citizenry' is going to have enough and it will organize and fight back. Then we have a tinderbox. We as a nation of parents, grandparents and older generation need to demonstrate to our next generations that you have to fight for your freedom and the wonderful culture that we once had. Its going to get messy.

Re: Pretext, context, setups, the pretenders playing nice – while also playing games (for control and money)

-pretending of no interference in 2016, 2020, 2022, 2024 elections

-pretending the media was giving candidates an equal shake (while propagandizing otherwise), with 'electability' followed by push polls (slanted) etc.

-no accountability for 'too big to fail bailouts', benghazi, flight 800, irs scandal, fast n furious, N3 selection, J6 bias, (un)affordable care act, miss starting a ukr rus war, open borders, illegal drug (and / or precursors) shipments into usa, c-virus / gene therapy, billion\$ / trillions miss spent and unaccounted – at costs to u.s. taxpayers for decades, see eye a, 4th branch, whistleblowers making up crime and getting protected, raids of trump supporters, tina peters in colorado prison, etc. etc.

-politicians (voted in to represent the people) largely being quiet (or inactive) during and after much of the above, but make an appearance to 'look good' or 'sound good' ad nauseum... and often saying things that are reactive (delayed), not proactive (problem solving, before a problem matures)....

While people pretended that was nothing to see here (amidst border, frauds, crimes) and those that called it out years earlier were conspiracy theorists, and that, and other things,

were precursors of what Schwalm described ('after' it was all set up. Kind of like WWII occurred many years, 'after' years of prior harms occurring – and a media (owner\$) providing cover, again, as is shown – if one closely looks – in the holocaust museum in dc).

'if' we learn from history, it can help us to avoid repeating bad history. and 'if' the fictional narrative writers of history get their way (not sharing true history, in real time i.e. delayed), history will repeat and repeat....

(hint, the media was never held accountable for miss creating public pressures upon NASA etc. to launch Challenger...never. But others were held accountable...)

Thank you Mr. Schwalm for stating what was stated (uhhh...about 5 years late)...
(benefit of the doubt: maybe you did state it years earlier, and faced the censoring, or name calling of being a conspiracy theorist.)

I do not know censoring / suppressing timely, real time, truths does miss work that way (by miss design)

Even so, it is better late, than never. Thank you Mr. Schwalm.

[and sadly, there are some, that never will say / act truthfully. Maybe just one of those, k e, in illustrated in the above article?]

And thank you for others for finding the stealth mpls etc. 'signal' chats that are coordinating miss behaviors etc. to occur in the USA.

And thank you for law enforcement that is in the midst of corrective, lawful actions (about 4 years late, due to prior miss leadership). There were people that have done similar in decades before. Not easy. Far from easy.

All gave some,

Some gave their all.

(for God, USA, for family, for liberty, and equal, lawful rights in the U.S. and inalienable rights under God...while in the pursuit of happiness.)

When there is a will,
then there is a way.

They are focused on the ICE shootings, completely missing that the protests are an escalation and cover up to the real issue, the organized fraud and theft of government money.
One other point, it is unlawful to block street traffic. Arrest people already.
