Friend,

This is a five-alarm emergency that requires your immediate attention.

With a full-scale war now underway in Iran, we have received dozens of urgent requests from countries in the region to help evacuate U.S. citizens.

Airspace is rapidly being closed down and many of your fellow Americans require safe passage.

Fortunately, Heroes for Humanity was built for moments like this.

We have been preparing for weeks and are asking you right now for your urgent help to fund rapid evacuation capability, medical response, logistics, open source intelligence (OSINT), assets on the ground, and strategic planning, support, and assistance in order to provide life-saving humanitarian relief.

DONATE NOW

This is Dennis Price. I'm a Marine Special operator and private military contractor with over 15 deployments who now leads rescue operations, humanitarian and medical aid – all led by the Holy Spirit “to free the oppressed, so others may live.”

Since 2022, I've been the founder and leader of Heroes for Humanity – a network of special operators, veterans, first responders, medical professionals, and everyday people committed to being the hands and feet of Jesus.

We were born in the chaos of Afghanistan's fall in 2021 – where I personally helped evacuate 77 Americans and vetted Afghan allies, even swimming the Panjshir River behind enemy lines to pull people out. And just the other day, we rescued 8 families from the chaos and violence in Mexico. But our story goes much deeper than even that.

In 2022, we **deployed to Ukraine for nine months** during the invasion, **delivered medical aid to orphanages, supported 65 wounded veterans, and ran precision rescues and logistics.**

And between 2023 and 2025, we **rescued trafficked children stateside** (including a 12-year-old trapped 45 days in California and a 16-year-old in Virginia), **aided persecuted Christians in China, responded to the Texas floods and hurricanes in North Carolina and Florida, evacuated 92 American families from Israel** during the 12-Day War, and provided aid after earthquakes and crises in Thailand, Burma, Cuba, Zambia, and more.

As you can see, we've been busy all across the globe, ***but right now our only focus is getting Americans out of harm's way in the Middle East where things can go very wrong very quickly.***

Our urgent goal is \$1,000,000 and your immediate support enables rescue, medical aid, and protection for the vulnerable. Will you rush in an emergency, time-sensitive donation right now?

Lives hang in the balance and you can make the difference.

DONATE NOW

Beyond your support, we ask for prayer, wisdom, protection for the innocent, and strength for those making difficult decisions.

Our mission remains clear: *protect the vulnerable, serve with integrity, and act with faith.*

Thank you for your time, and further updates will be provided as the security environment allows.

Respectfully submitted,

Dennis Price
CEO & Founder
Heroes for Humanity

"In order for evil to prevail, good men must stand by and do nothing."

SAVE AMERICANS

SERVING THE VULNERABLE.
SHARING THE GOSPEL
CHANGING LIVES.
