I'm from India, why not point the race who is behind it. lemme say it as I'm not affected by PC. Its the Black genetics which is behind this. People think, America is turning into 3rd world sh*t hole, I have news for you. America is turning into Hell not 3rd world.

As a third world guy, We do not have organized looting, its way way safer here. India's Dharavi the largest slum in the world is the only place on earth, where you get organized tours to see how poor people live in ghetto. You can't do this in America nor in Brazil.

People are poor here BUT NOT VIOLENT. This is a difference WHITE PEOPLE NEED TO UNDERSTAND and stop comparing us third worlders to what's happening in America, which is worse.

You can take your Mercedes and drive around all the ghetto's in India and you would come out in one piece.

Do not compare 3rd world with what's happening in America. Its WORSE - Animal Culture. We are not Animals...We are poor alright but you guys have gone way past 3rd world status - The bus America is riding has only one stop and its in HELL - not in a third world plane.
