Trump could solve all the problems in the middle east and save a bunch of American lives if he Nuked Israel.

Here's the problem.

- *If the US withdraws, the US goes bankrupt because no one will buy US treasuries to support US debt if the US has no power to enforce an oil monopoly.*
- *The US Can't win against Iran*

Unless:

- *The US uses Nuclear Weapons on Iran*

However, if the US Nukes Iran, then China and Russia will Nuke the US, and that will be the end of America as we know it. (The whole world sees the US as the aggressor nation in this war)

- *Everyone will be united against the US.*

The ONLY solution where the United States can maintain enough international power to get countries to continue buying US debt is if the US NUKES ISRAEL.

- *The US will then earn the respect of the world by eliminating the source of all the problems in the Middle East*
- *Russia and China will refrain from doing anything because the US Nuked the enemy of Iran who supports both Russia and China*
- *China will continue buying US debt.*

The rest of the world breathes a sigh of relief and gets to continue living once the center of evil is gone.
