Dear Sales Manager, good afternoon. I initially got your name and contact information from Thomas. I am with the Office of Textile and Apparel. We are trying to reconstruct supply chains that have been broken over the last few decades to support our mission of bringing manufacturing back to the USA. To do this, the U.S. Department of Commerce, Office of Textiles and Apparel (OTEXA), maintains a **Made in USA Sourcing and Products Directory** as a tool to assist domestic and foreign buyers sourcing U.S.-made fiber, yarn, fabric, apparel, footwear, travel goods, PPE, advanced and smart textiles or other textile associated products and services. The Directory is a listing of over 740 U.S. manufacturers, suppliers, distributors, and producers and receives over 5000 web visits per month. We invite you to register your company on the Directory – it's FREE! To register - go to the link: [Made in the USA Directory \(trade.gov\)](https://www.trade.gov/made-usa-directory) or <https://www.trade.gov/made-usa-directory> and select Register as a U.S. Company. Establish your sign in credentials (see NOTE below) and fill out the information that you want posted as your listing. You can go back and update your listing by selecting Update Company Profile whenever needed. You can also search the listings for products and services you may need by selecting Search for U.S. Companies using many filters provided.

To qualify, a vendor must be a company established in the United States with at least one manufacturing plant, assembly plant, or distribution center that manufactures, assembles, or distributes U.S.-made fiber, yarn, fabric, apparel, footwear, travel goods or other textile associated products and services.

NOTE: Please use a valid company email address (info, sales, etc.) and company phone number so that potential clients can easily contact you. If the occasion arises that you change job functions, please provide information on your successor by updating your Directory listing and sharing the passcode. This will assure continuous coverage and contact information for your company.

We wish you success with your business.

If you have any questions, please contact Homer Boyer at homer.boyer@trade.gov. or by phone at 609-922-0957.
