The goal of this new summit aiming to “bring solutions to vaccinate the world for everyone, everywhere.”

They're still pushing the experimental vaccines that wear off in a few months.

Unreal.

THE WHITE HOUSE  
WASHINGTON

**FOR IMMEDIATE RELEASE**

April 18, 2022

**Joint Statement Between the United States, Belize, Germany, Indonesia, and Senegal on the Announcement of the Second Global COVID-19 Summit**

The United States as first COVID Summit Chair, Belize, as CARICOM Chair; Germany, holding the G7 Presidency; Indonesia, holding the G20 Presidency; and Senegal as African Union Chair, are pleased to announce we will co-host the second Global COVID-19 Summit, which will be held virtually on May 12, 2022. The Summit will redouble our collective efforts to end the acute phase of the COVID-19 pandemic and prepare for future health threats.

This Summit follows the first [Global COVID-19 Summit](#) convened by the United States on September 22, 2021. In advance of the May 12 Summit, we are calling on world leaders, members of civil society, non-governmental organizations, philanthropists, and the private sector to **make new commitments and bring solutions to vaccinate the world, save lives now, and build better health security -- for everyone, everywhere.**

The emergence and spread of new variants, like Omicron, have reinforced the need for a strategy aimed at controlling COVID-19 worldwide. Together, we can mitigate the impact of COVID-19 and protect those at the highest risk with vaccinations, testing, and treatments, actions to minimize disruption to routine health services, and through support for the ACT-Accelerator multilateral mechanism. We know we must prepare now to build, sustain, and finance the global capacity we need, not only for emerging COVID-19 variants, but also future health crises. To help achieve these goals, we urge all countries and stakeholders to pledge to take urgent actions to create the systems we need to end the acute phase of COVID-19, save lives, and build better health security and health systems.

The Summit will build on the themes and commitments made at the first Summit and will place an emphasis on supporting locally-led solutions to both immediate and long-term challenges, including:

- Getting shots into arms;
- Deploying tests and treatments, especially for the highest-risk populations;
- Expanding and protecting the health workforce and minimizing disruptions to routine and essential health services;
- Enhancing access to medical countermeasures, including research and development and scaling and diversifying local and regional manufacturing; and
- Generating sustainable financing for pandemic preparedness, health security, and health systems

We look forward to another successful Summit to continue the international effort in the fight against COVID-19 and to advance global pandemic preparedness.

Question is...

Why is the word vaccinated being accepted??? Just because they it now say the cell hacking (gene therapy) is a vaccination...Doesn't mean you should accept it...Call it out for what it is...Always...

Some elites even admitted that if the public would have been told the truth,,, most would of not taken "The jab"...

So true and it's just incredible that people have accepted all of this tyranny! I just can't believe it; every day I wake up thinking it was a nightmare, yet it's reality.

I won't either, sick of snot ragged faces fiddling with their masks while I'm trying to enjoy an overpriced meal. Besides we prefer home cooking

Agreed. It isn't a 'vaccination' at all. Therefore, there are no anti-vaxxers.

The truth was available to any who looked for it. Preferring to use one's time in pursuits other than education about critical health issues is no excuse.

Exactly - and btw should the contents of each shot be accepted (also where they come from) even by parents of babies? Our trust in that word has been used against US.

1st they collapsed the shipping industry.

2nd they collapsed the oil/fuel industry.

3rd they collapsed the farming/food industry.

Now they are collapsing the health care industry.

Next very much expect to see them turn off the power and internet.

**Exploderwizard** → Kountry Bumpkin • 4 hours ago

Turning off the internet would really hurt the plan to move everyone to crypto currency. A prolonged outage will make even the dumbest sheeple realize just how unreliable it can be. If anyone takes down the internet it will someone working against the NWO.

**the\_bard\_retrocon** → Exploderwizard • 3 hours ago

They won't turn it off, they will take it over. Then they will have universal monitoring of everyone everywhere.

**TexasJerri** → the\_bard\_retrocon • 2 hours ago

They already have taken it over. They control all opposition.

5 ^ | v • Reply • Share ›

**David Johnson** → Exploderwizard • 2 hours ago

They already have their own government internet. Turning off the internet for the rest of the world would deny anyone the ability to set up any plan for to disrupt their agenda. Once they take away the people's way of communicating they won't care what the people realize.

I think they will use it to blame Russia and drag us into WW3.

With Nazti's spending (COVert) bills, they gave money but then dictated policies in Schools, then Postal, then Medical, then Airlines, then other Transportation - each control grab got stronger by money being dangled to corrupt "leaders" "agencies" "commissions" "boards" "CEOs" "councils" = \$ellouts. Only 1 way to use a cash spree called covid. DEFUND this govt, start over.

What they are really doing is transhumanism. Turning the people into something that can be controlled due to the graphene and 5G. You will either die or be programed or both.the graphene creates razorblade like structures that are magnetized and gather to cause clotting

3 ^ | v • Reply • Share ›

**tincansailor** → Carol • an hour ago

Pandemics will never stop as long as the NWO is in control. Graphene oxide was designed to make medicine flow through your body faster, but over dosing along with 5G can control you or kill you.

Does anyone believe the 'elites' are getting jabbed? I don't. And why are none of the 'elites' dying from the virus? The vast majority of them are in 'threatened' age brackets. Could it be that they are getting treated differently than the unwashed masses? HmMMM!

**Basiliscus O'Briann** → DontTreadOnMe11 • 4 hours ago

They are not getting the jab, the vaccine is there to bring down the population numbers to what they call an "sustainable number" as listed on the Georgia guide-stones.

They are healthier and their vax and treatments are far above from us peasants. Just imagine the power of Big Pharma dictating every soul on the planet gets jabbed.

**Sam Martinez** → Les\_Gaux\_Brendon • 4 hours ago

In 2019 and even before Scientist with Fauci were talking about this. Universal Flu Vaccine Health experts discussed the scientific and technological prospects of an effective universal influenza vaccine. Big Pharma devised this money making scheme. Hospitals and Clinics are already saying a once a year shot for everyone.

When Pelosi went to China in 2017. When she came back she started on Ivermectin or Hydroxchloroquine. Pelosi was in on the Covid scam to Stop Trump, he was trying to say this was a good alternative.
