How the f@ck does the Secret Service allow a shooter to set up on an open rooftop with no cover and a clear line of site with a long gun within 400 feet to Trump? SOP is to clear out any possible shooting positions to 800 yds.

That is not an accident or blown coverage....The FBI tried to keep him out of office with perjury and evidence tampering. The CIA acted to keep him out of office with illegal surveillance of campaign staff. The DOJ acted to keep him out of office with fabricated criminal charges on knowingly fraudulent evidence. The IRS tried to run him out of office with politically motivated tax audits and leaks of his confidential financial statements. The NY AGs office tried to disqualify him with a tortured civil case. Democrats in Congress tried to overthrow his elected government with impeachment attempts based on fraudulent evidence and baseless accusations.

And now it was the Secret Services turn.

Make no mistake....the attempted assasination is a direct result of the democrats unrelenting fear mongering and inflammatory rhetoric about Trump. They know they cannot win in a free and fair election, so now they try to kill him because in their minds, they are the sole custodians of truth and virtue on earth. Anyone who challenges their visions needs to be destroyed by any means, legal or otherwise

If I were Trump, I would fire the Secret Service and hire Triple Canopy for protection.
