History lesson for the ignorant.

The Marxist-Leninist; the Soviets; the CSS; the CPC, the Socialist Internationale, all banned or proscribed Homosexuality - Allende; Guvera; et al all condemned homosexuality as a bourgeois vice and product of wasted labour. Che said he would work homosexuals to death. What you are seeing isnt Marxism it is the fruits of godless-judeo-inclusive capitalism, being blamed on a dead ideology.

Can you really see Vladimir Putin or Xi Jing Ping prancing down the road wearing assless leather chaps, waving a dildo and gay tranny flag carrying a copy of Das Kapital?

Idiots, that's all these people are - useful idiots. Read **Golitsyn**.

Hypernormalized narratives are used to control these people to help change so-called Western civilization* afterwards these people will be put to the wall.

(centralized banking is NOT Western civilization, Sovereign money is. Read History of Central Banking and the Enslavement of Mankind; Goodson)

Seems like marxism has 'evolved' in a different direction since its soviet-era glory days.

LGBT+ is NOT Marxism, and it hasn't evolved, it has one ultimate mission.

"The policy of Russia is changeless. Its methods, its tactics, its maneuvers may change, but the polar star of its policy - world domination - is a fixed star. About Russia" - Karl Marx.

LGBT+ would not exist in a Marxist society, it is a product of inclusive capitalism.

When the banking international elite were reeling from the WTO protests (1999) and the last blow of Occupy (2008) and banking kleptocratic elites were on the ropes, they designed and promoted the LGBT+ movement, to distract from a growing desire to change the economic paradigm (to Sovereign money),

This distraction was summarised in Hilary Clinton words

"We cannot have economic equality, until we gay rights equality".

This is an economic news blog aggregator, not a sh*tty socio-political pop vox. Know your stuff.
