Charlie Kirk Murder Weapon Revealed And How The Brown Shirt Man (Professional Assassin) Killed Him

By Jeff Rense
9-16-25

The Importance Of Our Video Truly Cannot Be Overstated. Without It, Virtually No One Would Have Been Able To See The Murder Being Committed By An Obviously Top Drawer, Cold-Blooded, Smiling, Extremely Well-Trained Professional Assassin. The Murder Weapon Is Tragically Ingenious And Please Keep In Mind That What I Am About To Show You Was Only Produced In The 1890s.

The Weapon Used On Charlie Is Likely An Updated, Upgraded, New High-Tech Version Of An Original, Very Small, Chicago 'Palm Pistol' With A Round Magazine And Tiny 1.5 Inch Barrel...That Sticks Out Between The Middle Two Fingers Of The Shooter's Hand. The Weapon Is So Small It Can't Be Easily Seen In A Human Hand...Making It Perfect For Close-In Operations From 0-15 Feet. See Our Video At The :05 Point And You Will Look Right 'Down The Barrel' Of The Assassin's Gun At Work.

The Current Ammunition Might Be A Very High Velocity .22 'Short' Or A Custom Round, Even Smaller In Size Than A .22 Short. For More Damage, Perhaps The Original Very Short .32 Caliber Is Still In Use By Hired Killers. This Is A Highly-Concealable Specialty Gun Of Which There Were Only About 10,000 Ever Made Over 130 Years Ago. The Original Idea Was To Mass Produce Them For Grandma To Keep In Her Purse When She Was Out And About.

Okay, Time To Scroll Down And Look At The Images Below...And Then Return To This Point.

Immediately After The Shooting, The Brown Shirt Man Actually Leaped The Barrier And Helped Carry Charlie To The SUV...And Thereafter Escaped. While In The Van, He Likely Searched For The Bullet To Get Rid Of It. There Won't Be A Bullet Found Because It Is Not Supposed To Be...Unless A 30-06 'Patsy' Round Is Planted.

WATCH OUR VIDEO AGAIN And You Will See Everything Clearly.

Sequence Of Events...

1. The Brown Shirt Man Is Just Casually Standing Behind The Barrier In Front Of Charlie...With His Left Arm Straight Out And Laying On The Top Horizontal Bar Of The People Barrier. He Is Watching Charlie And Not The Crowd Behind. A Security Team Member Would never Turn His Back To The People Behind Him Which He Is Supposed To Be Surveilling. He Is Partially Turned To His Right And Is Not Facing Charlie Straight On. This Is To Better Cover What Is About To Happen.
2. The Brown Shirt Killer Then Brings His Right Hand Forward With The Palm Pistol In Position. He Moves His Hand To Below And In Front Of His Left Shoulder And Just Behind His Bicep.
3. The Tiny Barrel Is Just Barely Visible In A Shadow Between His Two Middle Fingers. You Can See The Opening.
4. He Quickly Aims And Fires The Deadly Round Without Any Hesitation. He Is Actually SMILING While He Kills Charlie.
5. Immediately After The Shot, He Pulls His Right Hand Down And Back From His Firing Position...And Either Slides The Little Palm Pistol Into A Front Chest Pocket Or Another Pocket Back Down On His Right Side.
6. In One Fluid Move, He Brings His Now Empty Right Hand Forward And Places It On The Top Of The Barrier. Then, With Both Hands, He Vaults Right Over The Barrier To 'Help' Carry Charlie To The SUV Out Back. This Assures The Brown Shirt Man's Escape In The SUV...Which Also Permits Him To Search For The Bullet.
7. Remember, There Is No Paramedic EMT Ambulance On Site. That Alone Is One Of Many Outrageous Parts Of The Sophisticated, Brutal Plot To Kill Charlie Kirk.

CHICAGO PROTECTOR PALM PISTOL

Repeating pistol
Weight: 12 oz.
Barrel Length: 1.75 inches
Capacity: 7 rounds
Caliber: .32 Extra Short Rimfire

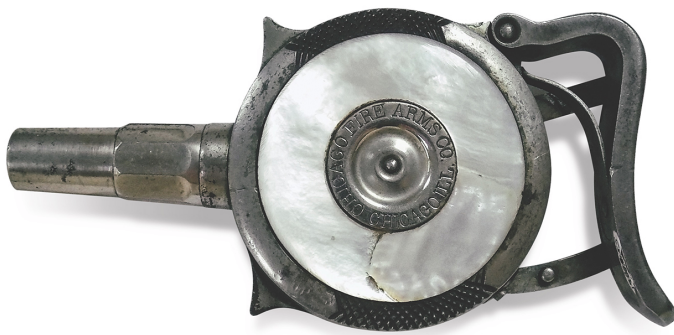

SPECIAL

USA

The Chicago Firearms Co. Protector Palm Pistol was a squeezer-type pistol with a rotary magazine. It was held with the barrel protruding between the first and second fingers, and was fired by squeezing the grip lever with the palm. Inset shows the rotary magazine uncovered.
